Coursework

COMPUTER SCIENCE
Data Structure and Algorithms
Object-Oriented Programming System (OOPS)
Data Base Management System (DBMS)
Operating System

ELECTRONICS
Computer Architecture
Computer Network
Digital Electronics
Analog Electronics

Skills

PROGRAMMING
• C/C++ • Python • HTML/CSS • JavaScript • MERN • Django • DSA • Git

DESIGN
• LaTeX • PhotoShop • VideoEditing

SOFT
• Communication • LeaderShip • TeamWork • Public Speaking

Achievements

- Solved 500+ questions of DSA on different coding platforms.
- Scored 98.3 percentile in JEE MAINS 2021.
- Qualified UPSC NDA thrice

Experience

SYSTEM ENGINEERING INTERN
Bharti Airtel Ltd.

📅 Dec 2023 –   📍 IMT Manesar,HR

- Project-1 : Developed a Do's Don'ts Quiz App for 5000+ System Engineering employees, guiding them on critical commands for VRF setup. Utilized Django Rest Framework and ReactJs for seamless backend and frontend integration.
- Project-2 : Spearheaded the development of an MSAN FTTH App for 700+ employees, optimizing their daily workflow from 25-30 min to a mere 1-2 min. The application facilitated the execution of two distinct scripts on the server, streamlining tasks. Utilized Django Rest Framework (DRF) for backend services and ReactJs for the frontend.
- Project-3 : Implemented a Critical Commands App for Senior Managers, enabling real-time monitoring of server commands to prevent network outages. Utilized Django for backend functionality and HTML/CSS for a user-friendly interface.

Projects

MY PORTFOLIO
National Institute of Technology,Kurukshetra

📅 Jun 2023 – July 2023

- ..Portfolio   **Link**
- Developed an impressive personal portfolio website showcasing my skills and projects using ReactJS.
- Deployed on Netlify App and also built a contact form that will be redirected to my personal mail account.
- Gained valuable expertise in Tailwind CSS and honed my skills in UI/UX design through hands-on experience on this project.

MY BLOG
National Institute of Technology,Kurukshetra

📅 July 2023 – Aug 2023

- Github   **Link**
- Designed and developed a feature-rich blog website using a MERN Stack and various other frameworks and libraries.
- Implemented user authentication using secure login and registration. User can modify settings accordingly.
- Implemented a robust back-end system with JavaScript and MongoDB to securely store and manage blog posts and user data.

Extra-Curricular Activities

SPORTS
• Badminton • Cricket • Volleyball

CLUBS OR SOCIETIES
• Microbus (ECE Society) • Sponsorship Committee (Core Member)

Position of Responsibility

- Volunteered in TechSpardha 2023(2nd largest college Tech fest in North India).
- Sponsorship Head in Microbus Society of NIT Kurukshetra.
- Organised a Workshop for freshers on Aurdino and DSA basics.
